Global Improvement Program 2021

Le Contexte

Global Improvement Program

L'Excellence Opérationnelle est une démarche nécessaire permettant de répondre à l'ensemble des enjeux liés aux besoins organisationnels de compétitivité et de profitabilité dans un marché global en pleine mutation et extrêmement concurrentiel.

La démarche d'Excellence Opérationnelle se base essentiellement sur le **LEAN Management** et vise principalement à optimiser les processus au sein des organisations tout en favorisant la culture de l'Amélioration Continue.

Cette démarche vise :

- L'Amélioration de la réactivité par suppression des tâches à faible valeur ajoutée
- La Maîtrise de la qualité par la réduction de la variabilité
- La Réduction des coûts opérationnels par le ciblage de la création de valeur

Le Service Global Improvement Program

Conçu exclusivement par un groupe d'Experts Lean 6 Sigma issus du milieu Aérospatial associés à des Formateurs d'Executive MBA et des Coachs Certifiés, le programme GIM (Global Improvement Management) d'Okane Consulting Group aborde l'intégralité du cycle de vie produit.

Il se concentre ainsi sur le Business, la Création de Valeur, le LEAN, la Qualité, le Coût, le Planning, la Supply Chain, la Gestion du Changement & de la Transformation, les HPO (Organisations Hautement Performantes), le Coaching d'Equipe et le développement du Leadership au sein d'environnements Complexes et Evolutifs.

Le Programme Global Improvement est ainsi composé du:

- Global Project Management
- Global Business Management
- Global Improvement Management
- Global Leadership Development

L'Objectif
